Ms. Cohen updated the commission on the Homeowner Assistance Fund Plan Guidelines Review. Ms. Cohen requested the commission approve the following recommendations:

1) Commission acknowledgement that the official HAF public comment period continues through September 12, 2021, and giving Montana Housing the ability to adjust components of the Montana HAF Plan that may be needed in responding to final public comments submitted. These adjustments will be made in consultation with the executive branch prior to submission of the final plan to Treasury by September 30, 2021.

2) Continued commission support of the proposed up to $25,000 reinstatement financial assistance as a loan program. Cons of loan program include increased administrative costs and potential decrease in homeowner and mortgage servicer subscription to the program. Although Treasury has indicated a loan program is an eligible use, there remain some uncertainties in how Treasury will address loan repayments in the future. Pros include aligning with Treasury guidance to prevent HAF from replacing other loss-mitigation efforts and ensuring equity of loss-mitigation options for Montanans, irrespective of their loan investor or insurer.

3) Montana Housing will highlight the difference in current market conditions (versus market conditions during HHF) as justification to Treasury for the deviation to not include loan forgiveness as a component of our HAF loan reinstatement program.
Questions were provided by the commission. Public comment was provided online.

Representative Galt made a motion to recommend to the Department of Commerce (DOC) that the Department’s plan for the Homeowner Assistance Guidelines be adopted as materially presented to this Advisory Commission at its meeting, with the following conditions:
