

MONTANA'S  
**MISSOURI  
RIVER** COUNTRY

01-4668

# WELCOME TO MONTANA'S MISSOURI COUNTRY

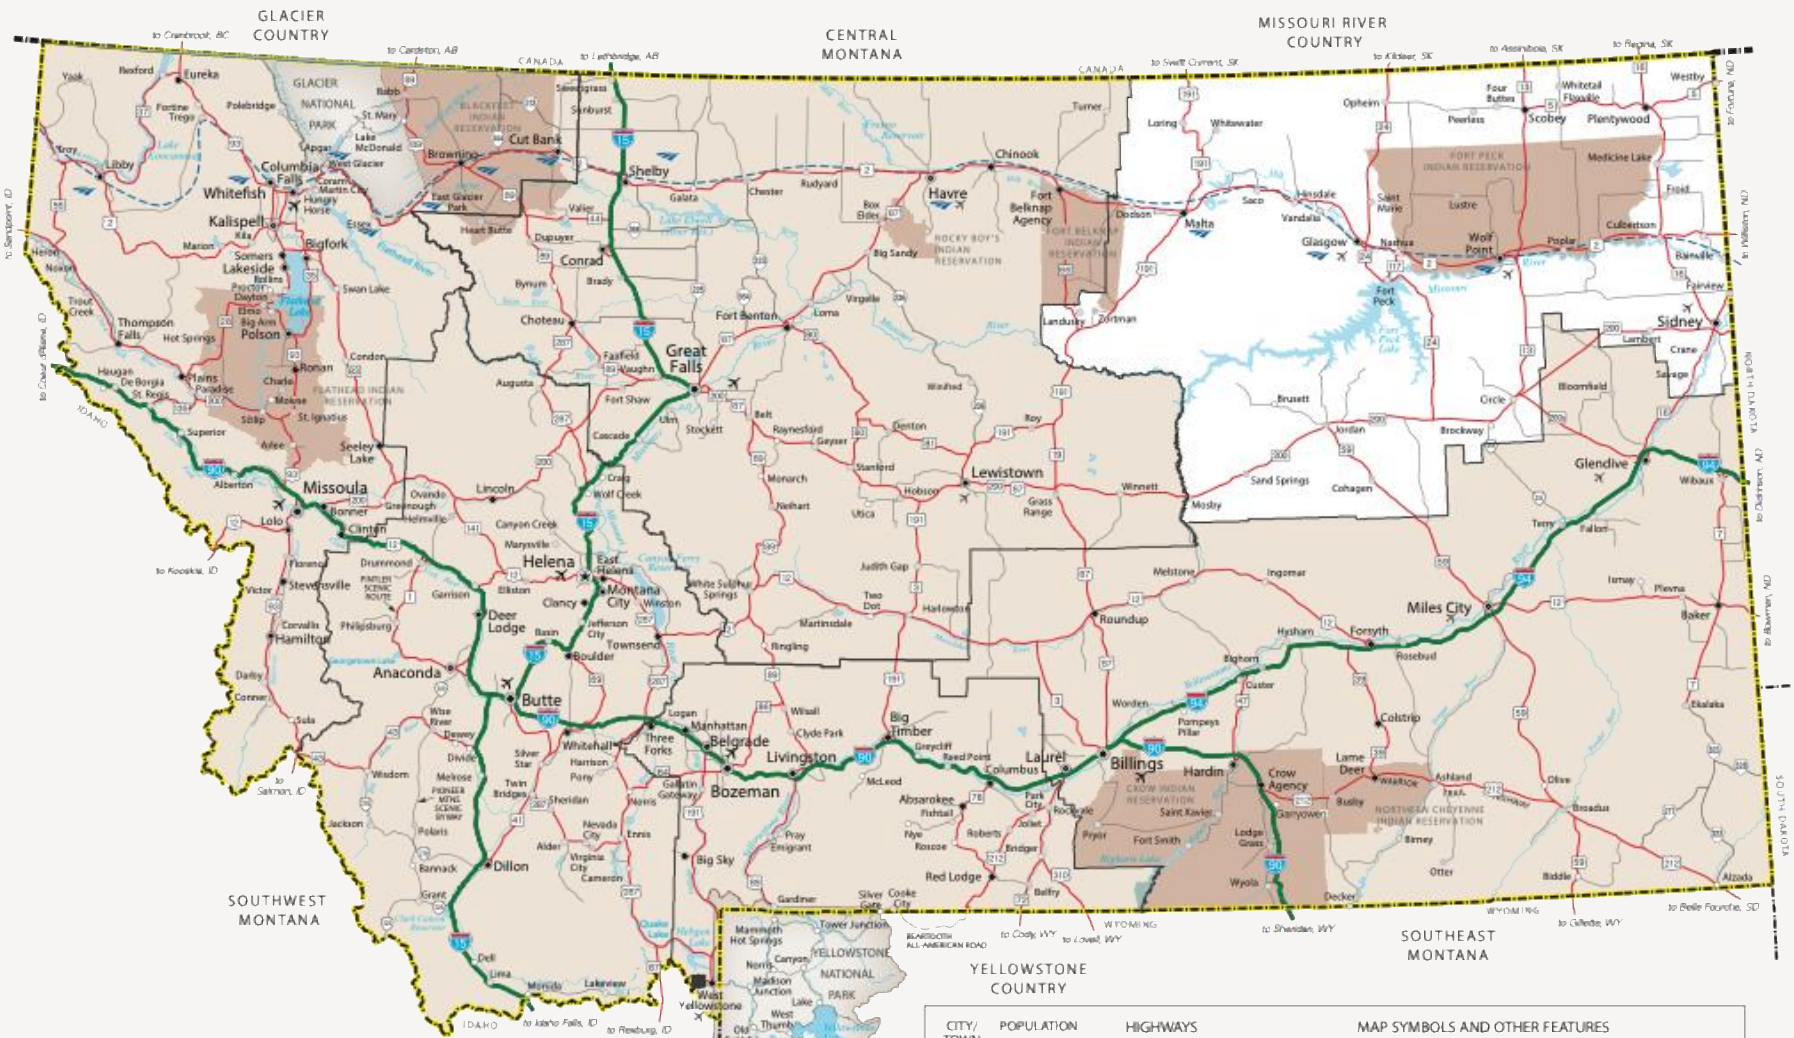

Missouri River Country offers a vast, uncrowded experience of  
*the American West.*

Rolling prairies, winding rivers, and enormous skies define  
this remote corner of Montana, where travelers find room to  
*slow down and disconnect.*

Fort Peck Lake and the Missouri River invite quiet exploration,  
*often without another soul in sight.*

And at night, some of the darkest skies in the lower 48 reveal  
*an unforgettable display of stars.*

**THIS is Missouri River Country ... Treasured & True.**

A wide-angle landscape photograph capturing a sunset over rolling hills. The sun is positioned on the left side of the horizon, creating a bright sunburst effect with rays extending across the sky. The sky transitions from a deep orange near the horizon to a pale blue at the top. The terrain consists of rolling hills and valleys, with some areas appearing to be covered in green grass or low vegetation. In the foreground, there are dense patches of blue and green shrubs and tall grasses. The overall mood is peaceful and serene.
