B. CDBG-ED Review Criteria

Letters of Support*

Each application will be evaluated under the CDBG-ED review criteria and will receive points depending upon the overall response to each criterion, relative to local capacity and resources. Applications will be reviewed in the order received.

Personal Financial Statements (for owners with 20% or more ownership)*

CDBG-ED applicants are required to submit narrative responses that describe the relationship of their proposed CDBG project to each of the review criteria, except where otherwise noted. Applicants must provide a response to each question and are encouraged to be succinct and not repetitive. Failure to respond to a criterion or to comply

with a pertinent and important application requirement will result in no points being awarded for that criterion. For ease of reference, any documentation or exhibits related to the applicant's response to a CDBG-ED review criterion should be placed in the application immediately following the applicant's narrative response to that criterion.

In order to avoid unnecessary duplication, the applicant may reference other pertinent portions of the application or appendices in the narrative responses to the priorities. However, the applicant should not reference another portion of the application, such as a PER or PAR, without including a narrative statement that provides at least a summary of what is being referenced. For example, an applicant should not simply state, "See page 4 of the Master Plan" as a response to a review criterion.

The CDBG-ED review criteria are listed below.
